

ABSTRACT

In today's world many peoples are suffering to do their complete jobs on various programming platform. The main aim of the project is to build a collaborative web platform which allows programming language students to keep an online journal. Our project is all about to help the people who are unable to crack their jobs in programming area.

Our blog is a journal that is frequently updated and intended for general public consumption. Any blogs are popular just because it allows people to interact with each other. The ability of readers to leave their comments in an interactive format is an important part of our blogs. We have developed this several blogs for ensuring effective policing by providing statistics of the members.

The MySQL database is used as a platform along with WAMP Server support. Application are developed in HTML5, CSS3, JavaScript using FLASK as an integration system.

Overall this Classic Blog is all about to manage the programming related activities.

ACKNOWLEDGEMENT

The satisfaction and euphoria that accompany the successful completion of any task would be incomplete without the mention of the people who made it possible and whose constant encouragement and guidance crowned our efforts with success.

We consider our-self proud, to be part of **Global Academy of Technology** family, the institution which stood by the way in endeavors.

We express our deep and sincere thanks to our Principal **Dr. N. Rana Pratap Reddy** for his support.

We are grateful to **Dr. Venugeetha Y**, Professor and HOD, Dept of CSE who is source of inspiration and of invaluable help in channelizing my efforts in right direction.

We wish to thank our internal guide **Ms. Sushmitha S**, Assistant Professor, Dept. of CSE and **Mr. Shyam Sundar Bhushan**, Associate Professor, Dept of CSE for guiding and correcting various documents of mine with attention and care. They have taken lot of pain to go through the document and make necessary corrections as and when needed.

We would like to thank the faculty members and supporting staff of the Department of CSE, GAT for providing all the support for completing the Project work.

Finally, we are grateful to our parents and friends for their unconditional support and help during the course of our Project work.

AMRIT RAJ [1GA16CS018]

ASHUTOSH RANJAN [1GA16CS033]
